

## LockTough Interlocking Rubber Gym Tiles

LockTough Interlocking Rubber Gym Tiles are heavy-duty rubber puzzle tiles that easily lock and stay together to protect floors from heavy weights while providing unsurpassed impact resistance. These rubber tiles are great for large areas, non-rectangular spaces and temporary workout locations.

- LockTough rubber tiles are 1/2" and 3/4" thick and come with beveled (sloped, no-teeth) edges though they are also available with straight (non-sloped) edges.
- These puzzle tiles are ideal when covering larger areas since installation times can be reduced thanks to the oversized nature of the tiles and can be used to create a sectional matting area or a wall-to-wall matting surface.
- These non-porous, indestructible, vulcanized rubber mats have textured surfaces for greater traction, even when wet.
- LockTough Rubber Tiles are excellent for use under heavy workout equipment, such as treadmills, stationary bikes, and weight-lifting machines. All LockTough puzzle tiles shield floors from damage while protecting machines and exercise equipment from vibration and carpet fibers.

**NOTE:** 3/4" Tiles are only available as Centers (ie, teeth on all four sides) and do not come with beveled or attached edges.
